

1. Find the Entity types

- Patients
- Doctor
- Pharmaceutical Company
- Drug
- Pharmacy
- Contracts

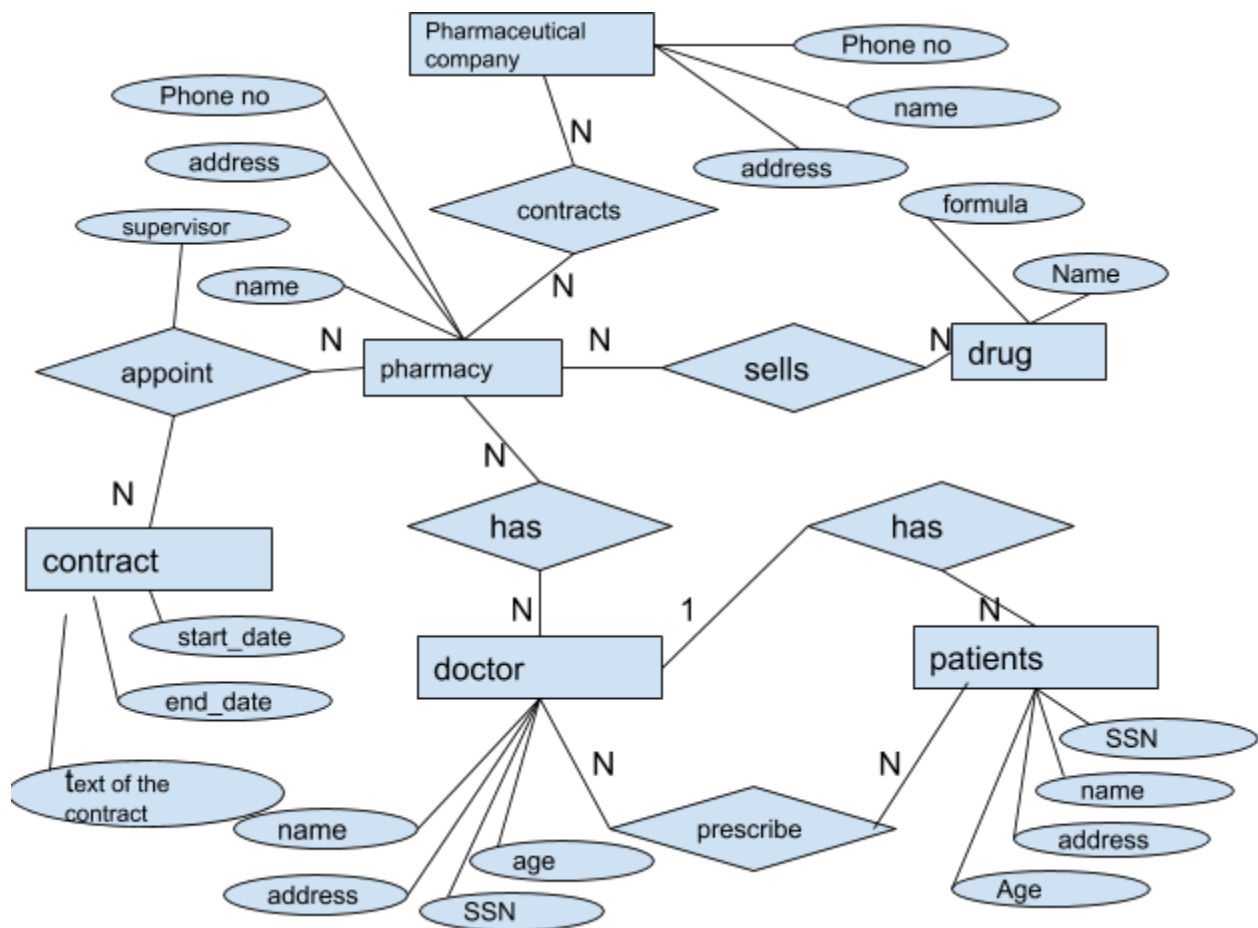

2. Draw ER diagram to each relationship separately.

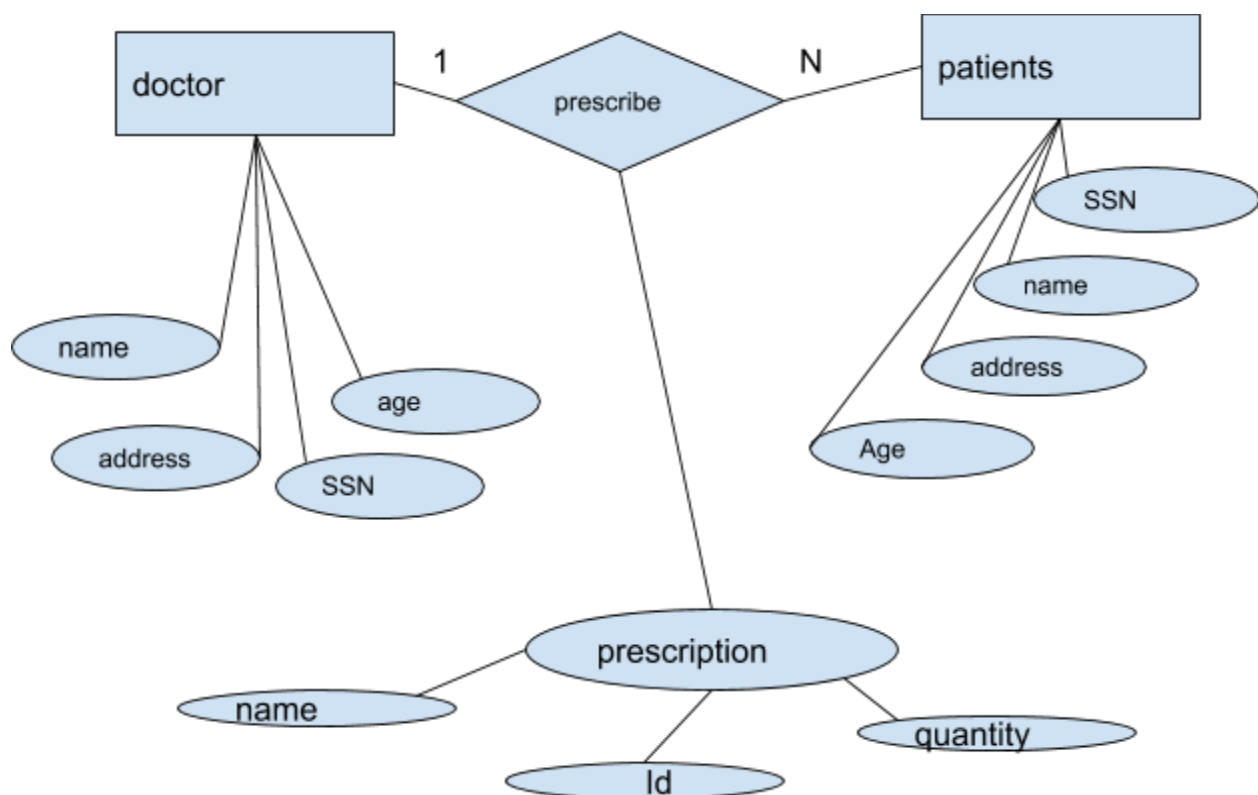

3. Draw a ER diagram that captures the above information.

4. How would your design change if each drug must be sold at a fixed price by all the pharmacies?

5. How would your design change if the design requirements change as follows: If a doctor prescribes the same drug for the same patient more than once, several such prescriptions may have to be stored separately?

6. Write Mongoose Schema for your diagram.
For guidance
